

COVID-19 and Blood Donation

Novel Coronavirus Outbreak (COVID-19)

Thank you for your life saving blood donation today! We're following all CDC, FDA, and AABB recommendations to prevent transmission of this virus during this outbreak.

Although you may feel completely well and healthy today, at the time of your donation, it is possible that you might be infected and feel ill or show signs of infection in the future.

Please contact us if you have any of the following in the next 28 days (4 weeks):

- Symptoms of respiratory illness, including fever, cough, or shortness of breath
- Are diagnosed with or suspected of having COVID-19 infection
- Discover you had exposure, up to 28 days prior to donation, to someone diagnosed with or suspected of having COVID-19

If you feel you may be at risk, please call us so that we can take action to keep our community blood supply safe.

If you develop an unexplained illness within the next 4 weeks, PLEASE get evaluated by your doctor and notify us as soon as possible at **(425) 656-3077**.

Thank you!
